

BridgeFund (\$BRDG) Whitepaper

Mission

BridgeFund is a platform that connects cryptocurrency donors with real-world businesses and community projects. The platform converts crypto donations into USD funding, enabling businesses that do not accept crypto to still benefit from the blockchain economy.

Problem

Millions of crypto holders want to support real businesses and communities, but most businesses do not accept cryptocurrency. Existing donation platforms lack transparency and blockchain integration.

Solution

BridgeFund creates a transparent bridge between crypto donors and businesses. Crypto is donated, converted into fiat, and delivered to verified campaigns.

Platform Features

- Campaign pages for businesses
- Crypto donation wallets
- Transparent donation tracking
- USD payouts to businesses
- Public transparency dashboard

Token Utility

The BridgeFund ecosystem includes the BRDG utility token which enables reduced platform fees, community voting, and donor rewards.
